

How to Receive Blog Posts by Email in 4 Easy Steps

(1) Visit our blog at blog.ericas.com. A little ways down on the right side, look for the block titled "RECEIVE NEW BLOG POSTS VIA EMAIL." Click in the empty field, key your complete email address, then press Enter on your keyboard or click the button labeled "Click to Subscribe".

(2) A new web browser window will open and present an Email Subscription Request similar to what you see in the screenshot below. Click in the empty field, carefully key the text you see, then press Enter on your keyboard or click the "Complete Subscription Request" button. If the text is hard to read you can press Enter on your keyboard or click the "Complete Subscription Request" button to get new text.

(3) Once you've successfully entered the text shown and pressed Enter on your keyboard or clicked the "Complete Subscription Request" button the window changes to reflect that your request was accepted.

(4) Check your email inbox for a message from FeedBurner Email Subscriptions. The email message contains a link you need to click to enable your subscription. When you click the link a web browser window should open and say "Email Subscription Confirmed!"

NOTE: If you haven't received the email in 10 minutes, you likely mistyped your email address and should begin again at step one.

As mentioned in the confirmation, if there is no new blog content, you will not receive an email.
