

Our Crafter Kitty

*Kassi couldn't wait to see the new Baby Lock Sashiko machine when I brought it home!
If you live in our area, you can see it (out of the box!) in our sewing department.*

If you have photos of your Crafter Kitty that you'd like to share, please email them to me.

Guest Crafter Kitty

Claudia Gonzales, from Fort Worth, Texas, shares a love of knitting with her cat, Duke. She writes this: "My cat, Duke, is a big fan of knitting! Each time I get my needles out, he perches on my lap and starts trying to eat the end of my needles. He also is a

huge fan of swaps, which he occasionally allows me to share with him. Duke is a rescue cat that has had me for 6 years. He adds his own touches to all my crafting, with the bits of hair he likes to leave in them.

Did you look at these pictures and think, "MY cat's a sew-er (or crafter), too! He (or she) should be in Erica's newsletter!" If you have a kitty that shares your love of crafts and sewing, and you catch him in the act, email a picture (with good resolution) and a SHORT (you know how we feline fanatics can go on and on!) paragraph about it. Send it to me at erica@ericas.com. We use kitty pictures in our online newsletter and in the local paper newsletter, and we're so happy to help show off these delightful felines for their human companions. So get out your camera, and catch your special "fur-purrson" crafting! [See more kitties here!](#)
