

We Love Our HQ Sixteens!

Find out why we've fallen in love with this fun way of finishing quilts! You can pull out all those unfinished tops and get them done, make charity quilts, quilt for friends, or even start a business!

- * It's nearly twice as fast as most home sewing machines
- * It has a full 16" throat depth, over 8" vertical clearance
- * It has long arm capabilities and optional Stitch Regulator at less than half the price of long arm systems.
- * It has a wide variety of the same kind of fun tools, and now

the ProStitcher Computerized option!

Pat Nichols, Niles, MI, had been thinking about the HQ for quite a while and is so glad she has it now!

Annette Blaschuk, Niles, gave me the wonderful analogy of writing, moving the pen over the paper (HQ frame quilting,) vs. moving the paper around under the pen.

Betty Byers from Valparaiso, was so excited, she was going right home to practice her new skills.

Financing Available on the HQ 16 and frame or the whole setup with the ProStitcher

6 Months No Payments, Deferred Interest *

No Money Down – 36 Month Fixed Monthly Payment *
APR 9.9%

* with the Home Source Card

Because I'm the one who's done the most with the HQ Sixteen, please call or email me (erica@ericas.com) so we can get together and I can show you some of my projects and let you see how easy and how much fun it is to work on!

Joyce Green from Three Oaks, MI, loved the potential she saw in our training with the ProStitcher!
