

## Model Makers Needed

There are so many fantastic patterns that we'd like to have samples of, but we can't make them all ourselves!

If you love to piece or machine appliqué, can complete projects in a 2-3 week time period (depending on size and complexity) and would be interested in making models on a fairly regular basis, please fill out our form and we will call you.

We'll ask you to bring in samples of your work and help us decide how you fit into our program.

### Stay connected!

## We need more teachers

The right people will have not only the technical knowledge, but a warm, friendly and encouraging attitude.

The wonderful thing about being able to teach is to share the accomplishments of eager students!

We are looking for someone who loves to piece & quilt by hand. Our current teacher is leaving the area.

Do you love to knit? We are looking for another warm, friendly, patient person to teach our students-- everything from just beginning to learn to the more advanced stitches and projects.

If any of these sound interesting, please fill out our teacher's application.

## Have you taken your sewing machine class yet?

Our Sewing Department has on-going classes for all our sewing machine and serger owners. If you haven't had your class yet, check in the Sewing Department and schedule yours.

This is part of the reason you bought your machine at Erica's! And be sure you don't miss Sewing Club meetings.

We're happy to help whenever you need it. And we love to see what you're creating!
