Embroidablock TNT

(Textures & New Techniques) Club

2010 starts a brand new Embroidablock of the month, done all in the embroidery hoop! As the Hoopsisters say, "It's dynamite, baby!" This quilt will feature trapunto, pleats and different texture options such as piping, ribbon and rick rack. We'll be doing it in the same format as our current one, with one block a month for nine months, and the tenth month will be finishing. If you can't make one of the meetings, you can pick up your CD in the store.
